EDUCATION

Don Bosco Institute of Technology	Bengaluru, Karnataka
<i>B.E. in Artificial Intelligence and Machine Learning</i>	<i>Expected 2027</i>

EXPERIENCE

AIML Intern	[05-03-2025 to 05-04-2025]
--------------------	----------------------------

<i>Internz Learn</i>	<i>India</i>
• Worked on sentiment analysis using natural language processing and machine-learning techniques. • Implemented neural-network classification models and evaluated model performance on labeled datasets. • Applied Python-based data preprocessing, feature preparation, model training, and result analysis.	

PROJECTS

AI News Summarizer	Python, NLP, EDA
---------------------------	------------------

- Built an NLP-based application to summarize and organize AI-related news content.
- Applied text preprocessing and natural-language techniques to extract concise, useful summaries.

LegalConnect – Smart Legal Assistance Platform	Flutter, Dart, Node.js, Express, Groq API, Llama 3.3, JWT, Firebase
---	---

- Developed a cross-platform legal-services application connecting clients with advocates, secure messaging, advocate discovery, calendar reminders, legal updates, and AI-assisted issue triage.
- Integrated Llama 3.3 70B Versatile through Groq API to structure plain-language legal queries into case type, legal nature, applicable law/sections, filing venue, next steps, fine range, and lawyer type.
- Implemented a deterministic rule-based fallback for selected legal topics when the hosted AI service is unavailable, with structured legal-analysis output and an informational-use disclaimer.
- Built the Flutter/Dart mobile client and Node.js/Express REST backend with JWT authentication, role-based authorization, Firebase notifications, and calendar reminders.

Data Analysis & Visualization	Excel, Power BI, Tableau, SQL
--	-------------------------------

- Performed data cleaning, validation, pivot-table analysis, and dashboard-oriented reporting on structured datasets.
- Explored healthcare, finance, and Olympic-medal datasets through exploratory data analysis.
- Applied formulas, conditional formatting, data dictionaries, and visualization techniques to communicate findings.

RESEARCH PUBLICATION

LegalConnect: An Integrated Digital Platform for Legal Advisory, Professional Matching, and Service Coordination	Aug. 2026
---	-----------

<i>International Journal of Computer Science Engineering Techniques (IJCSE)</i>	<i>Vol. 10, Issue 4</i>
---	-------------------------

- Research paper published in the International Journal of Computer Science Engineering Techniques.
- DOI: 10.5281/zenodo.21997190

TECHNICAL SKILLS

Languages: Python, Java, SQL, HTML, CSS, JavaScript, Dart
AI/ML: Machine Learning, NLP, Sentiment Analysis, Neural Networks, Deep Learning, Generative AI
Data & BI: Excel, Power BI, Tableau, Pandas, NumPy, Matplotlib
Databases: MySQL, MongoDB
Frameworks & Tools: Flutter, FastAPI, Node.js, Express, PyTorch, Git, GitHub, VS Code
Certifications: Deloitte Infosys Simplilearn GUVI
